

NIKO SUMCAD

Software Engineer

SUMMARY

Creative and results-driven web developer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Eager to leverage technical skills to innovative projects at tech companies with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

December 2023 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management
- Spearheaded the development of responsive full-stack web applications while identifying and resolving three major bugs contributing to application crashes, ensuring optimal performance for an increased user base exceeding 60,000 active users monthly

Recent Projects:

VendMe Up (Fullstack Web App) – Vendor can take product orders from clients labeled by name. Vendor can login to the app and see orders entered, mark them as complete. Orders that have been processed will note which employee completed the order.

Gamer Tales (Fullstack Web App) – Users can login to their profile, create chapter-style summaries of their favorite interactive media, and share to an internal community. They can add, edit, or delete stories through an input in their profile.

Other Projects: Model-View-Controller Lecture, Los Angeles StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer at NSum Consulting | Los Angeles, CA

February 2023 — January 2024

Created full stack web applications and static websites for different clients across small and medium size businesses. Consulted on SEO and social media strategy. Some clients included:

Life Journey Blog – Built and deployed a customized CMS website for client using JavaScript, HTML, and CSS to align themes with client requirements and branding. Provided training and documentation enabling client to independently manage website post-delivery.

Creative Development at Warner Bros. Animation & Cartoon Network Studios | Los Angeles, CA

June 2019 — July 2024

Crafted and executed creative strategies while streamlining department processes, driving a 15% increase in product sales and cutting project delivery timelines by 50%.
